## WORK EXPERIENCE

**Mobile App Development • Internship**　　　　　　　　　　　　　　　　　　Jul 2024
AK Infopark, Nagercoil

- Contribute to building and maintaining mobile applications for iOS or Android using relevant programming languages (Java,dartcode).
- UI/UX Design Help improve app interfaces and user experiences in collaboration with the design team
- Work closely with designers, and backend developers to meet app requirements and improve overall quality.

**Web Development • Internship**　　　　　　　　　　　　　　　　　　　　Mar 2024
M-Squared Automation IT Infra, Thiruvananthapuram

- Collaborating with the team to build and maintain user interfaces, web pages, and server-side logic using modern web technologies (HTML, CSS& JavaScript).
- Contributing to the design and improvement of user interfaces, ensuring an intuitive and engaging user experience.
- Working with designers and other developers to ensure project requirements are met and delivered on time.

**OPENCV AND AI USING PYTHON • Internship**　　　　　　　　　　　　　Sep 2023
Marcello Tech, Tiruchirappalli

- Gained hands-on experience with OpenCV to develop and implement image processing algorithms like object detection, face recognition, and edge detection, strengthening my understanding of visual data analysis.
- Learned essential techniques for cleaning and augmenting image datasets, improving model accuracy, and understanding how to handle real-world data for better results in AI applications.

## EDUCATION

**BE, Computer Science & Engineering**　　　　　　　　　　　　　　　　2022 - 2026
Amrita Institute Of Technology

**Senior Secondary (XII), Tamil Nadu State Board**　　　　　　　　　　　　2022
Science

Isha Vidhya Matriculation Higher Secondary School

Percentage: 80.00%

**Secondary (X), Tamil Nadu State Board**　　　　　　　　　　　　　　　2020
Isha Vidhya Matriculation Higher Secondary School

Percentage: 85.00%

## TRAININGS / CERTIFICATIONS

**Flutter App Development**
Jan 2025

IIT Madras, Chennai

<!--StartFragment-->Techobytes  Technologies, in collaboration with IIT Madras, has organized several 2-day workshops on Flutter app development. These workshops typically cover topics such as Dart programming, widget creation, and building cross-platform mobile applications. Participants have praised these sessions for their hands-on approach and comprehensive content.<!--EndFragment-->

## SKILLS

- HTML
- ReactJS
- JavaScript
- Flutter
- CSS
